Clinical Waste Sack - 8kg Medium Duty - 90L Yellow - Box of 200

Variant code: 18-CW90Y

Clinical Waste Sack Medium Duty Yellow are **clinical waste disposal bags** designed for the safe collection and containment of appropriate healthcare waste. Featuring a **90-litre capacity** and medium-duty construction with an 8kg load rating, these sacks provide a practical waste management solution for healthcare and clinical environments.

The **yellow colour coding** supports the segregation and identification of clinical waste requiring the appropriate treatment and disposal route. Designed for use within established **clinical waste management procedures**, these sacks help staff separate designated waste streams and maintain organised waste collection points.

Supplied in a convenient **box of 200 sacks**, they are ideal for healthcare facilities requiring regular waste bag replenishment. Their generous capacity and medium-duty specification make them suitable for routine clinical waste collection, subject to correct waste classification and handling procedures.

Product Features

- **90L capacity** for clinical waste collection.
- **8kg load rating** for medium-duty applications.
- **Yellow colour coding** supports waste segregation.
- **Medium-duty construction** for routine waste handling.
- **Suitable for designated clinical waste** requiring appropriate disposal.
- **Compatible with suitable 90L waste containers**, subject to fit.
- **Box of 200 sacks** for bulk replenishment.

Product Benefits

- **Supports clinical waste segregation** in healthcare environments.
- **Generous capacity** accommodates routine waste collection.
