Compactor Sacks - Extra Heavy Duty - 20kg/140L - Box of 100 - Black

Variant code: 18-LD23

Compactor Sacks are robust **extra heavy duty 140 litre waste sacks** designed for demanding waste management and compactor applications in commercial, industrial and high-volume environments. Manufactured from premium high-density polyethylene, these durable black compactor sacks provide exceptional strength and reliable waste containment for substantial and heavy waste loads.

Featuring a generous **140 litre capacity** and an independently rated **20kg load capacity**, these sacks are engineered to resist tearing, punctures and leaks during use and compaction. Their extra heavy-duty construction allows them to withstand the pressure and compression forces generated in waste compactors, helping improve waste volume reduction and disposal efficiency. The opaque **black finish** helps conceal waste contents while maintaining a clean and professional appearance.

Supplied in a convenient **box of 100 sacks**, these compactor sacks provide a dependable and cost-effective waste disposal solution for demanding workplaces and facilities handling bulky or heavy waste materials on a regular basis.

Product Features

- **Extra heavy duty compactor sacks**
- **140 litre capacity**
- **20kg load rating**
- Manufactured from premium high-density polyethylene
- Exceptional tear and puncture resistance
- Designed for compactor waste applications
- Opaque **black finish** for discreet waste containment
- Suitable for commercial and industrial waste handling
- Supplied in a **box of 100 sacks**

Product Benefits

- Provides reliable containment for heavy and bulky waste

Tel: 01626 355177
Email: info@aukhygiene.com

- Supports efficient waste compaction and disposal procedures
- Reduces risk of leaks, tears and sack failures
- Helps improve waste volume reduction and handling efficiency
- Suitable for demanding industrial and commercial environments
- Provides discreet and hygienic waste management
- Offers economical bulk supply for high-use facilities

Technical Characteristics

- **140L extra heavy duty compactor sacks**
- **20kg maximum load capacity**
- Black high-density polyethylene construction
- Suitable for compactor and high-volume waste systems
- Puncture and tear-resistant heavy-duty design
- Designed for commercial and industrial applications
- **Box quantity: 100 sacks**

Applications

Compactor Sacks are ideal for warehouses, factories, hospitality venues, construction sites, retail premises, manufacturing facilities and industrial workplaces where strong high-capacity waste disposal solutions are required. Their extra heavy-duty construction and compactor compatibility make them particularly suitable for environments handling bulky, dense or high-volume waste materials.

Property	Value
Colour	Black
Capacity (L)	140
Bag Closed Width (mm)	508
Bag Open Width (mm)	864
Bag Length (mm)	1168
Bags per Box	100
Duty	Extra Heavy Duty
