Compostable Bin Liners - 25L - Roll of 26

Variant code: 18-VBL25

Compostable Bin Liners are eco-friendly **25 litre waste bags** designed for the hygienic collection and disposal of food waste, garden waste and organic materials. Manufactured from biodegradable compostable materials, these sustainable liners provide an environmentally responsible alternative to traditional plastic waste bags while supporting cleaner and greener waste management practices.

Designed specifically to fit standard **25 litre bins and kitchen caddies**, these compostable liners offer dependable strength and leak resistance for handling everyday organic waste. Certified compostable to recognised standards, the liners naturally break down during composting without leaving harmful residues behind. Their breathable construction helps reduce moisture build-up and unpleasant odours while supporting improved composting performance and healthier compost production.

Supplied in a convenient **roll of 26 liners**, these compostable waste bags provide a practical and sustainable solution for homes, kitchens and workplaces looking to reduce landfill waste and improve organic recycling processes.

Product Features

- **Compostable bin liners**
- **25 litre capacity**
- Manufactured from biodegradable compostable materials
- Certified compostable to recognised standards
- Suitable for food waste and organic material collection
- Breathable material helps reduce odours and moisture build-up
