

SC Johnson Deb Estesol® FX™ PURE – Light Duty Hand Cleaner – Case of 4x2L

Variant code: 10-EPU2LT

SC Johnson Deb Estesol® FX™ PURE is a professional light duty foam hand cleaner designed to provide **effective industrial hand cleansing with skin-friendly performance** in general industrial and food manufacturing environments. Developed with a unique POWER FOAM formula, it removes light oils, grease, general grime and food-related soilings while supporting frequent daily hand washing requirements.

The advanced **POWER FOAM formulation** combines the cleaning efficiency of industrial hand cleaners with the convenience and economy of foam dispensing systems. Proven to be twice as effective as standard washroom soaps, the formulation effectively removes workplace contamination while using only a single foam dose per wash. In user testing, 89% of workers agreed the product left their hands feeling clean after use.

Designed for high-frequency use, the formula contains emollients that help leave skin feeling conditioned and comfortable throughout the working day. Clinical testing confirms that repeated daily use does not negatively affect the skin barrier function, while 79% of workers reported improved skin feel after use. The solvent-free formulation uses mild, high-quality surfactants to deliver effective cleansing without being harsh on skin.

The perfume-free and dye-free composition is suitable for sensitive skin and hygiene-sensitive environments, including food processing facilities. Certified by **ECARF** and the **EU Ecolabel**, the dermatologist-tested hypoallergenic formulation supports both skin health and environmentally responsible workplace hygiene management.

Product Features

- Professional **light duty foam hand cleaner**
- Unique **POWER FOAM formula**
- Removes light oils, grease and workplace grime
- Perfume-free and dye-free formulation

- Solvent-free with mild surfactants
- ECARF and EU Ecolabel certified

Product Benefits

- Provides **effective industrial hand cleansing**
- Twice as effective as standard washroom soaps
- High-efficiency foam system reduces product usage
- Helps maintain skin comfort during frequent washing
- Suitable for food manufacturing environments
- Supports sensitive skin and environmentally conscious workplaces

Technical Characteristics

- Supplied as **4 x 2L cartridges**
- Foam hand cleaner formulation
- Suitable for high-frequency workplace use
- Perfume-free and dye-free
- Dermatologist tested and skin hypoallergenic
- Use in accordance with manufacturer guidelines

Applications

SC Johnson Deb Estesol® FX™ PURE is suitable for use in **general industrial workplaces, food manufacturing facilities, food processing environments, workshops and commercial workplaces**. It is ideal for environments requiring **effective foam hand cleaning for light industrial contamination** with high-frequency use compatibility and sensitive skin support.

Property	Value
