SC Johnson Deb OxyBAC® Antimicrobial Rich-Cream Foam Hand Wash - 1L

Variant code: 10-OXY1L

SC Johnson Deb OxyBAC Antimicrobial Rich-Cream Foam Hand Wash is a **professional antimicrobial foam hand wash** developed for environments where high levels of hand hygiene are essential. Manufactured by SC Johnson Professional, the OxyBAC range is designed for use in food handling, catering, healthcare and public environments where effective hand cleansing and antimicrobial performance are required.

The formulation contains **Accelerated Hydrogen Peroxide® technology**, providing broad spectrum antimicrobial activity against many common bacteria, yeast and viruses when used as directed. It kills up to **99.999% of many common bacteria** and **99.99% of many common yeast and viruses**. The product passes **EN1499 in 30 seconds using 1.5ml of product**, supporting hygiene compliance in regulated workplaces.

Suitable for **food handling environments**, the product has been independently assessed and certified by HACCP International. It also meets biocidal requirements for use in healthcare environments. The **rich-cream foam formulation** delivers effective skin cleansing while maintaining user comfort during frequent washing. Added skin conditioners help reduce dryness and leave hands feeling smooth after use.

The foam format supports efficient usage, providing over 30% more washes while using less product compared to lotion soaps. It can also help reduce water consumption during rinsing. The hygienically sealed cartridge and patented foam pump help minimise the risk of external contamination during use.

Product Features

- **Antimicrobial foam hand wash** for professional environments
- Contains **Accelerated Hydrogen Peroxide® technology**
- Passes **EN1499 in 30 seconds**
- **Rich-cream foam** with skin conditioning properties
- Suitable for food, catering and healthcare

environments
- **Hygienically sealed cartridge system** to reduce contamination risk

Product Benefits

- Provides effective antimicrobial hand cleansing
- Supports hygiene compliance in regulated environments
- **Helps maintain skin condition** during frequent washing
- Reduces product and water consumption compared to lotion soaps
- Enhances user comfort with rich foam texture
- Supports hygienic dispensing and controlled usage

Technical Characteristics

- Supplied in **1 litre hygienic cartridges**
- Designed for compatible SC Johnson Professional foam dispensers
- Suitable for frequent hand washing applications
- Dermatologist tested with low allergenic potential
- Certified by HACCP International for food facility use
- Store in a cool, dry environment and follow label instructions

Applications

SC Johnson Deb OxyBAC Antimicrobial Rich-Cream Foam Hand Wash is suitable for general hand washing in **food processing, catering, healthcare, social care and public facilities** where high standards of hygiene are required. It is particularly effective in environments where greasy soils are encountered and where frequent hand washing forms part of routine hygiene protocols. The antimicrobial formulation, combined with skin conditioning properties and efficient foam dispensing, makes it suitable for high-traffic professional hygiene stations.

Property	Value
pH	2.50
