SC Johnson Deb Stokoderm® Protect - Skin Protection Cream - 100ml

Variant code: 10-UPW100ML

SC Johnson Deb Stokoderm Protect is a **general purpose skin protection cream** designed to help protect the skin against light to moderate exposure to workplace contaminants. Manufactured by SC Johnson Professional, the Stokoderm range forms part of a preventative skin care programme, helping create a protective barrier against both oil-based and water-based substances commonly encountered in industrial, commercial and food handling environments.

Suitable for a wide range of workplaces, the cream provides **proven protection against oils, grease, lubricants, detergents and other workplace substances**. Its **quick-drying formulation** leaves a pleasant, non-tacky protective film on the skin, encouraging regular application without affecting dexterity when using hand tools, equipment or gloves.

The formulation contains **Xanthan Gum**, a highly effective polymer that helps stabilise the protective barrier on the skin, and **Kaolin**, a natural mineral that helps prevent skin pores from becoming blocked by oil-based contaminants. Added **Glycerin** helps maintain skin hydration and comfort, reducing dryness and leaving the skin feeling smooth after use.

Designed for professional environments, Stokoderm Protect is **suitable for food handling facilities** when used in accordance with instructions and is proven compatible with **latex, vinyl and nitrile gloves**. The **perfume-free and silicone-free formulation** makes it suitable for sensitive users and environments involving paint, coating or surface finishing processes. Independent testing has also confirmed compatibility with rubber manufacturing and vulcanisation processes.

Product Features

- **General purpose skin protection cream**
- Protects against **oil-based and water-based substances**
- **Quick-drying, non-tacky formulation**
- Contains **Xanthan Gum** to stabilise the

protective barrier
- Contains **Kaolin and Glycerin** for skin protection and conditioning
- **Perfume-free, silicone-free and glove compatible**

Product Benefits

- Helps protect skin from workplace contaminants
- Encourages regular use without affecting dexterity
- Supports skin hydration and comfort during work
- Compatible with **latex, vinyl and nitrile gloves**
- Suitable for food handling and industrial environments
- Supports workplace skin care and protection programmes

Technical Characteristics

- Available in **100ml tubes and 1L cartridges**
- Suitable for light to moderate exposure to workplace contaminants
- Quick-drying protective barrier formulation
- Contains **Xanthan Gum, Kaolin and Glycerin**
- Perfume-free and silicone-free
- Compatible with rubber production and vulcanisation processes

Applications

SC Johnson Deb Stokoderm Protect is suitable for use in **manufacturing, engineering, automotive, food processing, warehousing, maintenance, utilities and general industrial workplaces** where employees are exposed to oils, greases, lubricants, detergents and other common workplace substances. It is particularly effective as part of a preventative skin care programme, helping protect the skin before work while maintaining comfort, glove compatibility and operational efficiency throughout the day. The availability of **100ml and 1L formats** makes it suitable for both personal issue and fixed workplace dispensing systems.
