SC Johnson Deb Swarfega® Orange - Heavy Duty Hand Cleaner - 4L

Variant code: 10-SORC4LTR

SC Johnson Deb Swarfega Orange is an **advanced solvent-free heavy duty hand cleaner** developed for industrial and workshop environments where effective removal of ingrained oil, grease and general grime is essential. Manufactured by SC Johnson Professional, the Swarfega range is trusted across industry for delivering powerful hand cleansing performance while helping maintain skin condition during frequent use.

The advanced formulation combines a **solvent-free cleansing system** with **non-abrasive scrubbers** to provide a deep-down cleaning action without the harshness associated with traditional solvent-based products. It effectively removes **ingrained oil, grease, lubricants and general workshop dirt**, making it ideal for demanding workplace environments such as engineering workshops, garages, manufacturing facilities and maintenance operations.

Unlike harsh abrasive cleaners, the non-abrasive scrubbing agents help lift and remove stubborn contaminants while remaining gentle on the skin. The formulation also contains **added moisturiser**, helping to support skin care and leave hands feeling smooth after washing. This balance of powerful cleansing and skin conditioning makes the product suitable for frequent daily use in busy industrial workplaces.

Supplied in a **4 litre cartridge format**, Swarfega Orange is designed for use with compatible SC Johnson Professional dispensing systems. The controlled dispensing system helps minimise product waste while supporting efficient workplace hygiene programmes in high-use environments.

Product Features

- **Advanced solvent-free heavy duty hand cleaner**
- Contains **non-abrasive scrubbers** for deep-down cleaning
- Effectively removes **ingrained oil, grease and general grime**

- Added **moisturiser** helps care for the skin
- Gel formulation for controlled and efficient application
- Suitable for frequent use in industrial environments

Product Benefits

- Delivers powerful cleaning without solvent-based ingredients
- Removes stubborn workplace contaminants effectively
- Helps maintain skin comfort during regular use
- Supports workplace hygiene and cleanliness standards
- Reduces product waste through controlled dispensing
- Combines effective cleansing with skin conditioning benefits

Technical Characteristics

- Supplied in **4 litre cartridges**
- Designed for compatible SC Johnson Professional dispensers
- Solvent-free gel formulation
- Contains non-abrasive scrubbing agents and moisturiser
- Suitable for frequent industrial hand cleaning applications
- Store in a cool, dry environment and follow label instructions

Applications

SC Johnson Deb Swarfega Orange is suitable for **engineering workshops, automotive garages, manufacturing plants, maintenance departments and industrial workplaces** where workers regularly handle oil, grease, lubricants and ingrained dirt. The advanced solvent-free formulation makes it particularly suitable for high-frequency hand cleaning programmes that require both effective contaminant removal and ongoing skin care support.
