

SC Johnson Deb TouchFREE Dispensers – 1L – White/Chrome

Variant code: 28-TF2WHI

- **'Touch-Free' Dispenser** – Encourages use and minimises any risk of cross-contamination.
- **Versatile** – Can be mounted on walls in washrooms, corridors and hallways or on Deb's free-standing chrome stand.
- **Exceptionally Long Battery Life** – The power provided by 4 D-Cell batteries will provide up to 5 years of operation in typical usage conditions.
- **Reliable** – Uses the latest infra-red sensing technology for reliable operation to prevent misfiring; tolerant to skin colour, temperature, ambient light & humidity.
- **Robust & Long-Life** – Dispensers are guaranteed against normal wear and tear for 5 years, subject to correct installation and dispenser care.
- **Large Capacity** – Cartridges contain 1200ml of Deb Stoko foam hand wash product providing approximately 1714 applications and 1000ml of foam hand sanitisers providing 1429 applications.
- **BioCote® Protected** – Dispensers are protected by BioCote®, a silver-based antimicrobial agent that is incorporated during the manufacturing process and inhibits the growth of a broad spectrum of bacteria and moulds. BioCote® does not rub-off and is effective for the lifetime of the dispenser.
- **Fixed product dose** – Delivers the exact amount required, controlling usage and reducing waste.
- **Unique locking mechanism** – Helps prevent unauthorised access, pilferage and product contamination.
- **Sight glass** – Provides visibility of the level of product in the cartridge which helps identify when product needs replacing.
- **Simple cartridge replacement** – Designed for exclusive use with Deb skin care system products to enable cartridges to be replaced in seconds, reducing maintenance time and costs.
- **Hygienic, airless cartridge** – The

ultrasonically sealed cartridge and pump mechanisms prevent the ingress of air into the cartridge during use to help prevent product contamination and ensure 'fresh' product is dispensed every time.

- **Minimal waste** – The air-tight cartridges are designed to collapse to minimise product waste.
