

PVA Hygiene Degreaser Screen Printed Empty Trigger Spray Bottle – Degreaser Bottle – 750ml

Variant code: 14-CE590

PVA Hygiene Degreaser Screen Printed Empty Trigger Spray Bottle is a **dedicated degreaser dispensing bottle** designed for use in professional cleaning and hygiene environments. Manufactured by PVA Hygiene, a supplier focused on structured chemical systems and compliant cleaning solutions, this bottle supports safe handling, accurate application and clear product identification within commercial operations.

The bottle is **screen printed for degreaser use**, allowing cleaning operatives to quickly identify the correct chemical and reduce the risk of misuse. Designed for compatibility with concentrated degreasing solutions, it supports controlled dilution systems commonly used in professional cleaning. The trigger spray mechanism enables even and targeted application, making it suitable for removing grease and grime from hard surfaces in kitchens, food preparation areas and industrial environments.

Its durable construction supports repeated use in high-frequency cleaning tasks, while the clear labelling contributes to COSHH-compliant storage and handling procedures. The bottle integrates easily into existing cleaning workflows and supports colour-coded or labelled systems to help maintain hygiene standards and reduce cross-contamination risks.

Product Features

- **Screen printed degreaser bottle** for clear chemical identification
- Designed for professional cleaning and hygiene systems
- Trigger spray head for controlled and even application
- Suitable for use with degreasing chemicals and concentrates
- Durable construction for repeated commercial use
- Supports structured cleaning and chemical management systems
- Manufactured by **PVA Hygiene**

Product Benefits

- Reduces risk of incorrect chemical usage
- Supports COSHH-compliant handling and storage
- Enables accurate and controlled application of degreasing solutions
- Improves efficiency in grease removal tasks
- Helps maintain organised cleaning systems
- Suitable for high-use commercial and industrial environments

Technical Characteristics

- Supplied empty for use with compatible degreasing chemicals
- Designed for trigger spray application
- Suitable for dilution or ready-to-use solutions
- Clean and rinse regularly to maintain performance
- Store in designated chemical storage areas
- Follow site-specific safety and cleaning procedures

Applications

PVA Hygiene Degreaser Screen Printed Empty Trigger Spray Bottle is intended for use in commercial kitchens, food preparation areas, industrial cleaning environments and facilities management settings. It is particularly suited to areas where grease build-up is common, such as worktops, extraction systems, equipment surfaces and hard flooring. The trigger spray format allows targeted application, helping cleaning operatives efficiently remove grease and grime while maintaining hygiene and safety standards in demanding environments.
