Denis Rawlins Curved Nozzle To Fit Brush: For DR75C

Variant code: 16-CAP40069

Denis Rawlins Nozzle for Slanting Brushes is a **genuine steam cleaning accessory** designed specifically for use with **slanting brush attachments on the Denis Rawlins DR75C Steam Cleaner**. Engineered to provide efficient steam delivery to angled brush tools, this nozzle helps maximise cleaning performance when tackling corners, edges, vertical surfaces and difficult-to-access areas.

The nozzle directs high-temperature steam through compatible slanting brushes, allowing operators to effectively loosen dirt, grease, grime and residues while maintaining precise control during cleaning. Its specialised design ensures optimal steam distribution to the brush head, improving cleaning efficiency and enhancing overall steam cleaning results.

Manufactured for professional cleaning environments, this durable accessory is designed for reliable performance and long service life. Easy to fit and replace, it helps maintain the versatility of the DR75C steam cleaning system and supports a wide range of specialist cleaning applications.

Product Features

- Genuine nozzle for slanting brush attachments
- Designed for Denis Rawlins DR75C Steam Cleaner
- Provides efficient steam delivery to brush heads
- Compatible with angled and slanting brush tools
- Improves access to corners and hard-to-reach areas
