Denis Rawlins Nylon Half Brush with Slanting Bristles: For DR75C

Variant code: 16-CAP21149

Denis Rawlins Nylon Half Brush with Slanting Bristles is a **specialist steam cleaning brush attachment** designed specifically for the **Denis Rawlins DR75C Steam Cleaner**. Featuring durable nylon bristles arranged in an angled configuration, this brush provides enhanced access to corners, edges, grout lines and other difficult-to-reach surfaces, improving cleaning effectiveness in detailed applications.

The slanting bristle design allows operators to maintain better contact with awkward surfaces while directing steam and scrubbing action precisely where it is needed. The durable nylon bristles effectively loosen dirt, grease, grime and residues without damaging most hard surfaces, making the brush ideal for both routine and intensive cleaning tasks.

Built for professional cleaning environments, this genuine accessory delivers reliable performance, durability and easy installation. It helps maximise the versatility of the DR75C steam cleaning system and supports efficient cleaning across a wide range of commercial, industrial and public environments.

Product Features
