# Dettol Mould and Mildew - 750ml

**Variant code: 05-357**

**Dettol Mould & Mildew Remover** is a **powerful antibacterial mould and mildew cleaner** specially formulated with active bleach to remove stubborn mould, mildew and unsightly staining from bathroom and other suitable hard surfaces. Its **bleach-based cleaning action** penetrates ingrained deposits, helping restore a cleaner, brighter appearance to areas affected by damp conditions. Designed for convenient everyday cleaning and targeted mould removal, it combines **stain removal and disinfection** in one practical product.

Formulated with **2.59g of sodium hypochlorite per 100g of product**, the cleaner uses active bleach to tackle even ingrained mould and mildew without the need for intensive scrubbing. It is claimed to **kill 99.9% of bacteria and viruses** when used according to the product instructions, helping maintain hygienic conditions on compatible hard surfaces. Particularly effective for **bathroom tiles, grout, shower areas and sanitary fittings**, the formulation helps remove dark mould staining and everyday contamination associated with damp environments.

Suitable for a wide range of bathroom surfaces, including **chrome, stainless steel, Formica, plastics, ceramic basins, toilets, acrylic baths, showers, glazed ceramic tiles and white grouting**, the cleaner offers versatile application across washrooms and bathrooms. Its **convenient 750ml spray bottle** allows targeted application to affected areas, including tile joints, grout lines and corners where mould commonly develops. Apply as directed, allow the recommended contact time and rinse or wipe the surface according to the label instructions. For safe use, ensure adequate ventilation and **never mix with other cleaning products**, particularly acidic descalers or ammonia-based cleaners.

## Product Features

- **Powerful mould and mildew remover** for suitable hard surfaces
- **Active bleach formulation** tackles ingrained mould and mildew staining
- **Contains 2.59g sodium hypochlorite**

- **Helps maintain cleaner showers and baths** through regular treatment
- **Bleach-based stain removal** improves the appearance of suitable sanitary surfaces
- **Ready-to-use convenience** eliminates measuring and mixing
- **750ml spray bottle** provides a practical format for household and professional cleaning
- **Versatile bathroom cleaning performance** reduces the need for separate mould stain removers

## Technical Characteristics

- **Product Range:** Dettol Mould & Mildew Remover
- **Product Type:** Bleach-Based Mould and Mildew Remover
- **Primary Function:** Mould and Mildew Removal
- **Secondary Function:** Antibacterial Cleaning and Disinfection
- **Formulation:** Active Bleach
- **Active Ingredient:** Sodium Hypochlorite
- **Active Ingredient Content:** 2.59g Sodium Hypochlorite per 100g
- **Antimicrobial Claim:** Kills 99.9% of Bacteria and Viruses When Used as Directed
- **Cleaning Action:** Bleach-Based Stain Removal
- **Target Contamination:** Mould and Mildew
- **Target Staining:** Dark Mould and Mildew Stains
- **Scrubbing Requirement:** No Intensive Scrubbing Required for Typical Applications
- **Physical Form:** Liquid
- **Product Format:** Ready-to-Use Spray Cleaner
- **Dilution:** Not Required for Labelled Spray Applications
- **Suitable Surface:** Chrome
- **Suitable Surface:** Stainless Steel
- **Suitable Surface:** Formica
- **Suitable Surface:** Compatible Plastics
- **Suitable Surface:** Ceramic Basins
- **Suitable Surface:** Toilets
- **Suitable Surface:** Acrylic Bathtubs
- **Suitable Surface:** Showers
- **Suitable Surface:** Glazed Ceramic Tiles
- **Suitable Surface:** White Grouting
- **Application Method:** Spray onto the
