

Dexti Cut Pro Glove – L – Black/Grey

Variant code: 22-AP32K7RL

Stay safe without sacrificing precision. The **Dexti Cut Pro Glove (Black/Grey)** is a high-performance, cut-resistant work glove designed for professionals who need maximum tactile sensitivity and reliable protection.

Whether you're in automotive assembly, glass handling, or intricate construction, these gloves offer a "second skin" feel while keeping you shielded from sharp edges.

Key Features & Benefits

- **Ultra-Lightweight 18-Gauge Liner:** One of the thinnest liners available, providing exceptional dexterity and reducing hand fatigue during long shifts.
- **Level B Cut Resistance:** Engineered with a seamless HPPE/Nylon blend to protect against moderate cut risks and abrasions.
- **Sandy Nitrile Palm Coating:** The specialised "sandy" finish provides a superior grip in wet, oily, or greasy conditions by channeling liquids away from the surface.
- **Reinforced Thumb Crotch:** Added durability in a high-wear area, significantly extending the life of the glove.
- **OEKO-TEX® Certified:** Tested to be skin-friendly and free from harmful substances, ensuring comfort for sensitive skin.
- **Breathable Design:** The back of the glove is uncoated to allow air circulation, keeping your hands cool and dry.

Technical Specifications

Feature	Details
Material	HPPE, Nylon, Elastic, Nitrile Sandy
Coating	Sandy Nitrile (Palm &

Feature	Details
	Fingertips)
Cut Level	EN 388:2016 Level B / ANSI Cut A2
Gauge	18 Gauge (Ultra-Fine)
Colour	Black/Grey (Low-soil visibility)
Standards	EN ISO 21420, EN 388 (4X32B), ANSI/ISEA 105

Ideal Applications

These gloves are a top choice for industries where precision meets hazard:

- **Small Parts Assembly:** Perfect for handling tiny screws and components.
- **Maintenance & Repair:** Ideal for oily engine parts or mechanical work.
- **Glass & Metal Handling:** Protects against sharp edges during light-to-medium handling.
- **Construction & Carpentry:** Provides the feel needed for power tool operation and measuring.

Frequently Asked Questions (FAQ)

Q: Are these gloves touchscreen compatible? A: While primarily designed for grip and cut protection, the thin 18-gauge liner and nitrile coating allow for basic touchscreen interaction on most modern devices.

Q: Can I wash the Dexti Cut Pro gloves? A: Yes. It is recommended to wash them in cool or lukewarm water (max 40°C) with mild detergent. Air dry them flat; avoid high heat or tumble drying to preserve the nitrile coating.

Q: How do I know my size? A: Measure the circumference of your palm just below the knuckles. Generally, Size 8 is Medium, Size 9 is Large, and Size 10 is XL.

Pro-Tips & Hints for Users

- **Grip Tip:** If the sandy nitrile coating gets covered in heavy grease, wipe them down with a damp cloth mid-shift to

restore the "suction" grip.

- **Storage:** Keep your gloves in a cool, dry place away from direct sunlight. UV rays can eventually degrade the elastic and nitrile over time.
- **The "Pinch" Test:** If you struggle to pick up a dime from a flat surface, your gloves are likely a size too large. The 18-gauge liner should fit snugly to maximise your tactile feedback.
