Disposable Polythene Car Seat Covers - White - Box of 600

Variant code: 18-590

Disposable White Polythene Car Seat Covers provide a simple and hygienic solution for protecting vehicle seats from dirt, grease, moisture and contamination during servicing, repairs, valeting and transportation. Manufactured from durable **13-micron white polythene**, these single-use covers help maintain a clean interior while presenting a professional appearance to customers.

Designed to fit most standard vehicle seats, the lightweight yet durable construction offers effective protection without restricting installation or removal. Ideal for high-volume automotive environments, the covers are supplied in a **box of 600**, making them an economical choice for busy workshops, garages, dealerships and valeting businesses. Their disposable design helps reduce the risk of cross-contamination while improving workplace hygiene and protecting vehicle upholstery.

Suitable for professional automotive use, these seat covers provide a quick and convenient way to safeguard vehicle interiors throughout servicing and maintenance operations.
