

Eliminator Extreme 70% Alcohol Sanitising Wipes – Tub of 200

Variant code: 02-815

Eliminator Extreme 70% Alcohol Sanitising Wipes are professional-grade disinfectant wipes designed for rapid cleaning and sanitising of hard surfaces in healthcare, commercial and public environments. Supplied in a convenient **tub of 200 wipes**, each wipe measures **200 x 200mm** and is impregnated with **70% alcohol** to provide fast, effective antimicrobial performance. The smear-free and lint-free wipes leave surfaces clean and ready for immediate use, making them ideal for fast-paced workplaces where hygiene is critical.

Formulated for rapid action, these alcohol wipes offer a short contact time and are effective as a **bactericidal, yeasticidal and virucidal disinfectant, including against enveloped viruses**. Their high-quality, lint-free material ensures a streak-free finish without leaving fibres behind, making them suitable for cleaning a wide variety of frequently touched surfaces and equipment.

Designed for demanding professional environments, Eliminator Extreme 70% Alcohol Sanitising Wipes deliver a convenient, ready-to-use solution for maintaining high standards of hygiene. The portable tub protects the wipes from contamination and dispenses them individually for efficient, controlled use throughout the working day.
