# Eliminator High Performance Quat Free Disinfectant Wipes - Bucket of 2000

**Variant code: 02-550**

**Eliminator High Performance Quat Free Disinfectant Wipes** provide a powerful, ready-to-use cleaning and disinfecting solution for professional environments where effective hygiene and food safety are essential. Supplied in a **bucket containing 2,000 wipes**, these high-capacity disinfectant wipes are formulated **without quaternary ammonium compounds (Quats)**, making them an excellent choice for healthcare, education, catering and food production facilities. The convenient dispensing bucket keeps wipes protected while ensuring quick access during busy cleaning routines.

Tested to **EN1276, EN13697, EN1650 and EN14476**, these high-performance wipes deliver broad-spectrum antimicrobial protection against bacteria, fungi and viruses. Their Quat-free formulation offers excellent cleaning performance while remaining **safe for use on food preparation surfaces and food processing equipment immediately after application**. Thanks to their extremely low oral toxicity, no rinsing is required before food contact, helping to improve productivity without compromising hygiene standards.

Designed for demanding commercial use, Eliminator High Performance Quat Free Disinfectant Wipes combine effective cleaning and disinfection in one convenient product. The large-capacity bucket reduces refill frequency, making it an economical solution for facilities requiring continuous access to professional-grade disinfectant wipes.

## Product Features

- High performance Quat free disinfectant wipes
- Large dispensing bucket containing 2,000 wipes
- Broad-spectrum antibacterial, antiviral and antifungal performance
- Tested to EN1276, EN13697, EN1650 and EN14476
- Safe for food contact surfaces and
