

Windmill Purple Beerline Pipeline Cleaner and Sanitiser - 2 x 5L

Variant code: 04-227

Cleans and sweetens beer pumps and pipelines by simple soaking. Suitable for both pressurised dispensing equipment and traditional hand pumps. Purple indicating solution to show the pipeline is completely clean.

Dilute the solution 1 part to 100 parts water. Draw the solution completely through the system until a purple liquid is coming out of the tap. Leave solution in the line for 5 minutes. The solution will change colour. Draw more solution through the lines until purple. Wait a further 5 minutes and draw the solution through the lines. Repeat the operation until the solution remains purple. At this point flush the whole system out with clean water until no colour is present in the pipes.
