Evans Carehands - Barrier and Moisturising Cream - Case of 6x500ml

Variant code: 10-321

Evans Carehands is a professional **barrier and moisturising cream** developed by Evans Vanodine to help protect and condition skin exposed to frequent washing and demanding working environments. Designed for regular use in commercial and industrial settings, it helps support skin comfort while contributing to effective hand care routines.

Its dual-action formulation creates a protective barrier on the skin while delivering moisturising benefits to help reduce dryness caused by repeated washing, cleaning products and environmental exposure. The cream absorbs easily without leaving excessive residue, making it suitable for routine use throughout the working day. Designed for dispenser application, it provides a practical and hygienic solution for shared workplace environments.

Suitable for use across a variety of sectors, it helps maintain skin condition in environments where hand hygiene and skin protection are both important.
