# Evans Cyclone - Perfumed Thick Bleach - 2 x 5L

**Variant code: 05-306**

**Evans Cyclone** is a powerful **perfumed thick bleach** developed by Evans Vanodine for effective cleaning and disinfection in professional environments. This thickened liquid formulation contains added detergent to help clean and disinfect in one operation, providing reliable hygiene performance across a variety of surfaces.

The product is suitable for use in **washrooms, toilets and kitchens**, where maintaining cleanliness and hygiene is essential. Its **thickened consistency** allows it to cling to surfaces for improved contact time and enhanced cleaning performance. Evans Cyclone is effective against a range of bacteria and is also effective against **Coronavirus when used as part of a two-stage cleaning process**. Finished with a strong, long-lasting fragrance, it helps leave treated areas clean and fresh after use.

## Product Features

- **Perfumed thick bleach** with added detergent
- Cleans and disinfects in **one operation**
- Effective against a **range of bacteria**
- Effective against **Coronavirus** in a two-stage cleaning process
- **Thickened formula** for improved surface contact
- Suitable for **washrooms, toilets and kitchens**
- Can also be used for **soaking cloths and mops**

## Product Benefits

- Supports hygiene standards in professional environments
- Improves efficiency with combined cleaning and disinfecting action
- Enhances cleaning performance on vertical and heavily soiled surfaces
- Helps reduce the spread of harmful bacteria and viruses
- Leaves treated areas fresh and pleasantly fragranced
- Provides versatile use across multiple cleaning tasks

- Suitable for routine and deep cleaning applications

## Technical Characteristics

- Suitable for use on a variety of **hard washable surfaces**
- Designed for washrooms, kitchens and sanitary environments
- Thickened formulation improves contact time during cleaning
- Can be used for soaking **cloths and mops**
- Use according to manufacturer dilution and contact time guidance
- Effective against Coronavirus as part of a two-stage cleaning process
- Store in a cool, dry environment away from direct sunlight

## Applications

**Evans Cyclone** is suitable for use in commercial washrooms, kitchens, healthcare environments and general facilities management applications. It is ideal for cleaning and disinfecting toilets, sinks, floors and sanitary surfaces where hygiene and odour control are important. Its thickened bleach formulation also makes it suitable for soaking cleaning cloths and mops as part of routine infection control and cleaning procedures.

| Property | Value |
|---|---|
| pH | 12.7 |
| Fragrance | Hypochlorite & Citrus |
| Do's & Don'ts | Do not use on marble, natural stone, wood, painted surfaces, aluminium, carpet, or paper; avoid skin and clothing contact and keep away from acid-based products. |
| Area of Use | Washable Hard Surfaces |
| CLP | corrosive, environmental |
| How to Use | Remove heavy soil first, dilute as directed for the intended application, apply or soak for the recommended contact time, then rinse or wipe clean as needed. |
| Chemical Colour | Light Yellow |
| Hard Surfaces | Remove heavy soil, dilute 1:50 with warm water (20 ml per 1 L), apply by sponge or mop, leave for 5 minutes, then wipe away excess. |
| Cleaning and Disinfecting Toilets | Flush and remove excess dirt, apply at least 100 ml directly onto all toilet surfaces, leave for 15 minutes, scrub thoroughly, then flush. |
| Bleaching Laundry | Dilute 1:100 for normal use or 1:200 for overnight soaking. |
