Evans Destain Coffee Stain and Tannin Remover - 5kg

Variant code: 04-313

Evans Destain is a highly effective **coffee stain and tannin remover** developed by Evans Vanodine for professional catering and beverage service environments. This powerful powder formulation is designed to remove stubborn tea and coffee staining from crockery, helping maintain cleanliness and presentation standards in busy service areas.

Formulated with a **chlorine-releasing agent**, Destain cleans and disinfects in one operation, making it suitable for both routine and deep cleaning tasks. It is also effective for removing tannin build-up from equipment such as **tea urns, coffee machines and vending machines**. The powder dissolves easily in hot water, ensuring convenient preparation and consistent performance across a range of water conditions. Its **unperfumed formulation** makes it suitable for use in food and beverage environments where odour neutrality is important.

Product Features

- **Powder cleaner** for removing coffee and tea stains
- Effective against **tannin and stubborn staining**
- Contains a **chlorine-releasing agent** for cleaning and disinfection
- Suitable for crockery, **tea urns and coffee machines**
- **Dissolves easily** in hot water
- **Unperfumed formulation** for catering environments
- Effective in **soft, medium and hard water**

Product Benefits

- Restores crockery and equipment appearance by removing staining
- Improves hygiene by combining cleaning and disinfection
- Supports consistent presentation standards in beverage service
- Enhances efficiency in cleaning routines
- Suitable for use across multiple types of catering equipment

- Provides reliable performance in varying water conditions
- Maintains odour-neutral cleaning in food environments

Technical Characteristics

- Designed for use with **hot water solutions**
- Suitable for soaking crockery and cleaning beverage equipment
- Contains active ingredients for both cleaning and disinfection
- Use according to manufacturer dosage recommendations
- Effective across a range of water hardness levels
- Store in a cool, dry environment away from moisture
- Follow safety guidance when handling chlorine-based products

Applications

Evans Destain is suitable for use in commercial kitchens, cafes, restaurants, hotels and catering environments where tea and coffee staining is common. It is ideal for soaking crockery, cleaning beverage equipment and maintaining tea urns, coffee machines and vending machines. Its ability to remove tannin build-up and disinfect surfaces makes it a practical solution for maintaining hygiene and presentation standards in professional food service operations.

Property	Value
Fragrance	Faint Chlorine
pH	(diluted solution): 10.5 - 11.5 @ 1%
Area of Use	Crockery, tea urns, coffee making machines and vending machines
