Evans EC9 Washroom - Cleaner Descaler Concentrate - Red Zone - 1L

Variant code: 07-EZ30

The **Evans EC9 Washroom** is a professional **cleaner and descaler concentrate** developed by Evans Vanodine as part of the e-zone colour-coded cleaning system. Designed for effective washroom maintenance, it combines cleaning and descaling performance in one formulation, helping to remove soil, limescale and residues from high-use sanitary areas. The product features a **fresh fragrance**, leaving washrooms clean and pleasantly scented after use.

As part of the e-zone system, EC9 is designed to be used within a **simple, colour co-ordinated cleaning programme**, supporting efficient product identification and safe application across different areas. The formulation uses carefully selected ingredients to deliver reliable cleaning performance while maintaining consideration for environmental impact. Its concentrate format allows for controlled dosing and economical use, making it suitable for routine professional cleaning operations.

Product Features

- **Washroom cleaner and descaler concentrate**
- **Perfumed formulation** for a fresh finish
- Part of the **e-zone colour-coded cleaning system**
- Removes soil, limescale and washroom residues
- **Concentrate formulation** for economical use
- Suitable for a range of washroom surfaces
- Designed for routine washroom maintenance

Product Benefits

- Maintains cleanliness and appearance of washroom environments
- Combines cleaning and descaling in one process
- Supports efficient cleaning workflows through colour-coded system

- Reduces product waste with refillable concentrate format
- Leaves washrooms fresh and pleasant after cleaning
- Provides consistent results in high-use areas
- Balances performance with environmental considerations

Technical Characteristics

- Dilute according to manufacturer guidance before use
- Suitable for use with cloths, mops, sprays or cleaning systems
- Designed for use within the **e-zone system**
- Effective on most washable washroom surfaces
- Always test on an inconspicuous area before use on sensitive materials
- Store in a cool, dry environment away from direct sunlight
- Follow all safety and handling instructions during use

Applications

The **Evans EC9 Washroom** is suitable for use in commercial and institutional washrooms including offices, schools, healthcare facilities and public buildings. It is ideal for cleaning sinks, tiles, sanitary fittings and other washroom surfaces where limescale and general soiling occur. Its compatibility with the e-zone system makes it particularly suitable for organisations seeking a structured, efficient and colour-coded approach to cleaning operations.

Property	Value
Fragrance	Citrus
pH	0.4
Dilution	Dilute concentrate at 1:60 ratio. Use 10 ml concentrate per 600 ml water. Increase dosage if needed for descaling. Ensure proper contact time (1 min) and follow cleaning instructions before and after application.
Area of Use	Ideal for disinfecting and descaling washbasins, baths, showers, toilets and tiles.
