Evans Evolve Handsan - Hand Sanitiser Cartridge - Case of 6x1L

Variant code: 10-351

Evans Evolve Handsan is a professional **hand sanitiser cartridge** developed by Evans Vanodine for environments where high standards of hand hygiene are essential. Designed for use with compatible Evolve dispenser systems, it delivers rapid and effective sanitising performance while supporting hygienic and controlled dispensing in commercial and public settings.

Its advanced formulation is effective against a broad range of microorganisms, helping reduce contamination risks in high-contact environments. The sanitiser passes **EN 1500** for hygienic hand rub performance, along with **EN 1276** and **EN 13727** under clean conditions with a **30 second contact time**. It also passes **EN 14476** against **all enveloped viruses** with a **1 minute contact time**, providing reliable virucidal performance for professional hygiene programmes.

The quick-evaporating formulation leaves no sticky residue and includes an added moisturiser to help protect skin during frequent use. Supplied in a sealed cartridge format, it supports hygienic refilling and efficient dispenser maintenance in high-use environments.

Product Features

- **Hand sanitiser cartridge** for professional dispenser systems
- Effective against **bacteria, enveloped viruses and yeast**
- Passes **EN 1500** hygienic hand rub standard
- Passes **EN 1276** and **EN 13727** under clean conditions
- Passes **EN 14476** against all enveloped viruses
- Quick-drying formulation with **no sticky residue**
- Contains moisturiser to help protect skin

Product Benefits

- Supports high standards of hand hygiene in professional environments

Tel: 01626 355177
Email: info@aukhygiene.com

- Helps reduce contamination risks on hands
- Provides effective sanitising performance with recognised certifications
- Dries quickly for efficient and convenient use
- Helps maintain skin comfort during repeated application
- Improves hygiene control through sealed cartridge dispensing
- Suitable for high-frequency use in shared facilities

Technical Characteristics

- Authorised Biocide: **UK-2019-1195-0001**
- Designed for use with compatible **Evolve dispenser systems**
- Effective with stated contact times for certified performance
- Quick-evaporating alcohol-based formulation
- Cartridge format supports hygienic and controlled dispensing
- Store in a cool, dry environment away from direct sunlight
- Follow all safety and handling instructions during use

Applications

The **Evans Evolve Handsan** is suitable for use in **healthcare environments, food production areas, schools, offices, hospitality venues and public facilities** where effective hand sanitising is required. It is ideal for placement in high-traffic areas and shared washroom facilities, helping maintain hygiene standards and reduce contamination risks. The sealed cartridge system makes it particularly suitable for organisations implementing structured hygiene and infection control procedures.
