Evans Evolve - 1L Cartridge Liquid Dispenser - White

Variant code: 10-357

Evans Evolve 1L Cartridge Liquid Dispenser is a professional wall-mounted dispensing system developed by Evans Vanodine for controlled and hygienic delivery of compatible liquid wash products. Designed for use with the Evans Evolve cartridge range, it provides a practical and reliable solution for maintaining hand hygiene and washroom presentation in commercial environments.

Its durable construction and modern design make it suitable for high-use washroom and shower facilities where reliability, cleanliness and ease of maintenance are important. The dispenser is engineered to accommodate **1 litre sealed cartridges**, supporting hygienic product replacement while helping reduce contamination risks associated with open refill systems.

Designed for efficient daily operation, the dispenser delivers controlled product dosing to minimise waste and improve consistency across washroom facilities. Its clean appearance and straightforward functionality make it suitable for a wide range of professional environments.

Product Features

- **Wall-mounted liquid dispenser** for 1L cartridge systems
- Compatible with **Evans Evolve cartridge products**
- Designed for hygienic sealed cartridge replacement
- Durable construction for professional environments
- Controlled dispensing to reduce product waste
- Suitable for washrooms and shower facilities
