Evans Evolve - Foaming Refillable Dispenser - 900ml

Variant code: 28-351

Evans Evolve Foaming Refillable Dispenser is a professional wall-mounted dispensing system developed by Evans Vanodine for controlled delivery of foaming hand wash products. Designed for use in commercial washroom and hygiene environments, it provides an efficient and hygienic solution for foam soap dispensing in high-traffic facilities.

Its refillable design allows flexible product replenishment while supporting economical product usage and reduced packaging waste. The dispenser is engineered to produce a consistent foam application, helping improve hand coverage and user experience during routine hand washing. Its durable construction and modern appearance make it suitable for a wide range of professional environments where hygiene, reliability and presentation are important.

The wall-mounted format helps maximise space efficiency while supporting organised washroom layouts and streamlined maintenance procedures.

Product Features

- **Foaming refillable dispenser** for professional washrooms
- Designed for controlled foam soap dispensing
- **900ml refillable capacity**
- Wall-mounted format for organised installation
