Evans Odour Neutraliser Refill - Bactericidal Deodoriser - Case of 2x5L

Variant code: 06-624

Evans Odour Neutraliser is a highly effective **bactericidal deodoriser** developed by Evans Vanodine to eliminate unpleasant odours at source while supporting hygiene standards. Formulated with **odour counteractants**, it works by neutralising malodours rather than masking them, providing a more reliable and long-lasting solution for maintaining fresh environments. This refill format is suitable for use in professional cleaning systems where larger volume supply is required.

This fast-acting formulation is designed to tackle a wide range of offensive odours including **urine, vomit, smoke, perspiration, rancid food and pet odours**. In addition to its deodorising capability, it delivers a **bactericidal effect**, helping to reduce bacteria on treated surfaces. The product meets **EN1276** standards, confirming its effectiveness against a range of bacteria. Suitable for use on hard surfaces, carpets, fabrics and in waste bins, it provides a versatile solution for professional cleaning applications while leaving a **fresh, pleasant fragrance**.

Product Features

- **Bactericidal deodoriser** for odour control and hygiene
- Contains **odour counteractants** to neutralise malodours
- Effective against odours from urine, vomit, smoke and food
- Suitable for use on **hard surfaces, carpets and fabrics**
- Passes **EN1276** for bactericidal performance
- **Fresh deodorising fragrance** after use
- Refill format for use in professional cleaning systems

Product Benefits

- Eliminates unpleasant odours rather than masking them
- Supports hygiene by reducing bacteria on treated surfaces

Email: info@aukhygiene.com

- Improves environmental freshness in high-use areas
- Suitable for both routine and reactive odour control tasks
- Provides flexibility across multiple surface types
- Enhances efficiency in professional cleaning operations
- Leaves areas clean, fresh and more hygienic

Technical Characteristics

- Designed for use as part of a professional cleaning system or refill process
- Apply via spray, cloth or appropriate cleaning equipment
- Suitable for use on a wide range of washable surfaces and fabrics
- Effective against odour-causing bacteria
- Always test on an inconspicuous area before use on delicate materials
- Store in a cool, dry environment away from direct sunlight
- Follow all safety and handling guidance during use

Applications

The **Evans Odour Neutraliser** is suitable for use in commercial, domestic and institutional environments including washrooms, healthcare facilities, hospitality settings, offices and public spaces. It is particularly effective in areas where persistent odours occur, such as waste bins, carpets, upholstery and high-traffic zones. Its combination of odour neutralisation and bactericidal performance makes it a practical solution for maintaining both hygiene and freshness across a wide range of applications.

Property	Value
Dilution	Use Neat
pH	8
Fragrance	Wild Berries
Volume (ml)	6x750
