

Evans Odour Neutraliser RTU – Bactericidal Deodoriser – Case of 6x750ml

Variant code: 06-623

Evans Odour Neutraliser RTU is a highly effective **bactericidal deodoriser** developed by Evans Vanodine to eliminate unpleasant odours at source. Supplied in a convenient ready-to-use formulation, it is designed for fast and efficient application across a variety of environments where odour control and hygiene are essential. Its formulation includes **odour counteractants** that work to neutralise malodours rather than simply masking them, delivering a cleaner and fresher environment.

This quick-acting solution is capable of tackling a wide range of offensive odours including **urine, vomit, smoke, perspiration, rancid food and pet odours**. In addition to deodorising, it provides a **bactericidal effect**, helping to reduce the presence of bacteria and supporting hygiene standards. The product passes **EN1276**, confirming its effectiveness against a range of bacteria. Suitable for use on hard surfaces, carpets, fabrics and in waste bins, it offers a versatile solution for professional cleaning applications while leaving a **fresh, pleasant fragrance**.

Product Features

- **Ready-to-use odour neutraliser** for immediate application
- **Bactericidal formulation** effective against a range of bacteria
- Contains **odour counteractants** to neutralise malodours
- Effective against odours from urine, vomit, smoke and food
- Suitable for use on **hard surfaces, carpets and fabrics**
- Passes **EN1276** for bactericidal performance
- **Fresh deodorising fragrance** after application

Product Benefits

- Eliminates unpleasant odours rather than masking them
- Supports hygiene by reducing bacteria

- on treated surfaces
- Improves cleanliness and freshness of indoor environments
- Provides quick and convenient application with ready-to-use format
- Enhances cleaning efficiency across multiple surfaces
- Suitable for routine odour control and reactive cleaning tasks
- Leaves treated areas smelling clean and fresh

Technical Characteristics

- Ready-to-use formulation requiring no dilution
- Apply directly via spray to affected areas
- Suitable for use on a wide range of washable surfaces and fabrics
- Effective against odour-causing bacteria
- Always test on an inconspicuous area before use on delicate materials
- Store in a cool, dry environment away from direct sunlight
- Follow all safety and handling instructions during use

Applications

The **Evans Odour Neutraliser RTU** is suitable for use in commercial, domestic and institutional environments including washrooms, healthcare facilities, hospitality settings, offices and public spaces. It is particularly effective in areas where persistent odours are common, such as waste bins, carpets, upholstery and high-use facilities. Its combination of odour neutralisation and bactericidal performance makes it a practical solution for maintaining both freshness and hygiene across a wide range of applications.

How to Use

For areas with an established persistent problem spray the surface liberally to ensure the odour is digested. For more recently contaminated areas, spray the offending material to help neutralise the immediate odour.
