

Evans EC7 Heavy-Duty – Printed Trigger Spray Bottle – White Foaming Head – 600ml

Variant code: 14-610G

Evans EC6 All-Purpose Printed Trigger Spray Bottle is a professional **cleaning bottle and spray head system** designed for use with Evans Vanodine EC6 All-Purpose cleaning solutions. Developed as part of the **e-zone colour-coded cleaning system**, it supports accurate product identification, controlled chemical application and improved cleaning safety in commercial environments.

Supplied complete with a **white trigger spray head**, this reusable bottle is designed for efficient dispensing of diluted cleaning solution across a wide range of hard surface cleaning tasks. The printed bottle design helps ensure correct product usage and supports compliance with structured cleaning procedures, particularly in environments operating colour-coded hygiene systems.

Its durable construction makes it suitable for repeated professional use, while the trigger spray mechanism allows controlled and even application during spray-and-wipe cleaning operations.

Product Features

- **Printed trigger spray bottle** for EC6 All-Purpose solution
- Supplied with **white trigger spray head**
- Part of the **e-zone colour-coded cleaning system**
- Designed for controlled spray application
- Reusable bottle suitable for professional environments
- Supports accurate product identification and usage
- Suitable for spray-and-wipe cleaning methods

Product Benefits

- Improves efficiency during routine cleaning tasks
- Supports safe and structured chemical management
- Helps reduce risk of incorrect product

- application
- Enables controlled and even surface coverage
 - Durable design suitable for repeated daily use
 - Supports colour-coded hygiene systems
 - Simplifies cleaning bottle identification in shared environments

Technical Characteristics

- Capacity: **600ml**
- Includes compatible **white trigger spray head**
- Designed for use with diluted EC6 All-Purpose cleaner
- Suitable for spray-and-wipe cleaning applications
- Refillable and reusable bottle construction
- Store upright when filled and not in use
- Follow all manufacturer dilution and safety guidance

Applications

The **Evans EC6 All-Purpose Printed Trigger Spray Bottle** is suitable for use in **commercial cleaning, healthcare, education, hospitality and facilities management environments** where structured cleaning systems are used. It is ideal for spray application of all-purpose cleaning solutions onto desks, fixtures, fittings and other washable hard surfaces. Its compatibility with the **e-zone system** makes it particularly effective for organisations implementing colour-coded cleaning procedures to improve safety, consistency and operational control.
