Evans Protect Disinfectant Cleaner RTU - 6 x 750ml

Variant code: 05-216

Evans Protect RTU is a professional **ready-to-use disinfectant cleaner** developed by Evans Vanodine for use in hygiene-critical environments. This multipurpose formulation is designed to clean and disinfect in one operation, helping maintain high standards of cleanliness while supporting infection control procedures across a wide range of sectors.

Suitable for use in environments including **schools, hospitals, surgeries, nursing homes, sports clubs and swimming pools**, Protect RTU delivers effective bactericidal cleaning on a variety of hard surfaces. It is also ideal for use within the leisure industry for cleaning and disinfecting equipment, sunbeds, steam rooms and saunas. The formulation passes **BS EN 1276:1997** and is effective against a broad range of bacteria including **MRSA and Shigella sonnei**, as well as viruses and fungi. Its ready-to-use format provides fast, convenient application while leaving a **clean, fresh odour** after use.

Product Features

- **Ready-to-use disinfectant cleaner** for professional environments
- Cleans and disinfects in **one application**
- Effective against **bacteria, viruses and fungi**
- Passes **BS EN 1276:1997** hygiene standard
- Suitable for a wide range of **hard surfaces**
- Ideal for **healthcare, education and leisure environments**
- Leaves a **clean, fresh fragrance** after use

Product Benefits

- Supports infection control in high-risk environments
- Helps reduce the spread of harmful microorganisms
- Improves cleaning efficiency with combined cleaning and disinfection
- Provides convenient application without dilution
- Suitable for routine cleaning of frequently touched surfaces
