Evans Q'sol Superior Washing Up Liquid - 2 x 5L

Variant code: 04-121

Evans Q'sol is a high-quality **superior washing up liquid** designed for the effective manual cleaning of crockery, glassware and kitchen utensils. Developed by Evans Vanodine, this high foaming formulation delivers reliable grease removal and consistent cleaning performance, even in demanding environments with heavily soiled items.

With a **neutral pH formulation**, Q'sol is mild on hands while still providing powerful cleaning action. It produces a rich, stable foam that remains effective under heavy soil conditions, helping to break down grease and food residues efficiently. In addition to dishwashing, it is also suitable for **general cleaning of floors, walls and vehicles**, offering a versatile solution for a wide range of cleaning tasks. Its concentrated formula ensures economical use, while a **fresh, clean fragrance** leaves cleaned surfaces smelling pleasant.

Product Features

- **High foaming washing up liquid** for manual cleaning
- **Neutral pH** formulation, mild on hands
- **Excellent grease removal** performance
- Produces **stable foam** even under heavy soiling
- **Concentrated formula** for economical use
- Effective in **all water hardness conditions**
- **Fresh, clean fragrance**

Product Benefits

- Ensures effective cleaning of crockery, glassware and utensils
- Maintains cleaning performance in demanding conditions
- Provides a comfortable user experience with a mild formulation
- Reduces product usage through concentrated formulation
- Offers versatility across multiple cleaning tasks
- Supports consistent results regardless of water hardness
