

Exel Handle – White – Box of 5

Variant code: 15-100W

Exel Mop Handle is a lightweight yet durable replacement handle designed for use with **Exel mop heads** in commercial and professional cleaning environments. Measuring **137cm in length**, this high-quality alloy handle features an **easy push-fit connection**, allowing mop heads to be attached and removed quickly for efficient cleaning and maintenance.

Manufactured from strong yet lightweight aluminium alloy, the handle provides excellent durability while remaining comfortable to use during extended cleaning tasks. Its practical design helps reduce operator fatigue, while the secure push-fit mechanism maintains a reliable connection throughout use.

Finished in **white** for easy identification and supplied in a **box of 5**, these handles are ideal for professional cleaning teams requiring dependable replacement equipment for everyday floor care.

Product Features

- **137cm alloy mop handle**
