Fimap Drive Board Screw On Center Lock Complete

Variant code: 16-410575

Fimap Drive Board with Screw-On Centre Lock is a **complete replacement pad driver** designed for compatible **Fimap scrubber dryers**, providing a secure platform for attaching floor pads used in cleaning, polishing and floor maintenance applications. Supplied complete with the **screw-on centre lock**, this genuine-style replacement ensures quick installation and reliable pad retention during operation.

Manufactured from durable, heavy-duty materials, the drive board is engineered to withstand the demands of daily commercial cleaning while delivering smooth and consistent pad rotation. The integrated **screw-on centre locking system** securely holds the floor pad in place, preventing movement during operation and helping maximise cleaning performance across a variety of hard floor surfaces.

Designed as a direct replacement component, the drive board is quick to fit and easy to remove for routine maintenance or pad changes. Its robust construction provides long service life and dependable performance, making it ideal for professional contract cleaners and facilities management teams.

Suitable for compatible **Fimap scrubber dryers**, this complete drive board is an essential accessory for maintaining optimum floor cleaning, polishing and scrubbing efficiency.

Product Features

- **Complete replacement drive board**
- Supplied with **screw-on centre lock**
- Secure floor pad retention system
- Heavy-duty commercial construction
- Suitable for scrubbing, cleaning and polishing pads
- Smooth and consistent pad rotation
- Quick and easy installation
- Direct replacement component

Product Benefits

- **Provides secure attachment of floor pads**
