

Fimap FSR – Ride-On Battery Powered Sweeper with 1 Side Brush inc Batteries & Charger

Variant code: 16-FSR

Industrial and commercial sweeping machine designed for the efficient collection of dust and dirt from various indoor and outdoor surfaces.

The ride-on Fimap FSR B is compact, versatile, eco-friendly and extremely productive with very low consumptions. The machine is battery powered, and suitable for cleaning areas up to 8,000sqm.

The reduced dimensions and easy handling make it perfect for outdoor spaces, and most commercial and industrial interiors, such as in factories, warehouses, car parks, hospitality and retail spaces.

Features & Design

- **Compact Design:** Makes it manoeuvrable in small and cluttered areas, factories, warehouses, and car parks.
- **Ergonomic:** Lowered footboard and access from both sides for operator comfort. Steering wheel with integrated controls for easy operation.
- **Filtration:** Available with a panel filter for standard operations or a fabric filter for environments with very fine dust.
- **Safety Features:** Emergency stop button, automatic safety brake (machine stops when pedal is released).
- **Maintenance:** Central brush can be removed without tools; debris hopper is easy to remove and empty.
- **Connectivity (Optional):** Compatible with FFM (Fimap Fleet Management) system and My.Machine app for real-time monitoring of position, health status, cleaned area, and consumption figures.

Property	Value
Length	1455mm with brushes

Property	Value
Battery Run Time (Up to/Mins/Each)	Up to 240 mins each
Power Size	Battery (24V)
Coverage	Up to 8,000sqm
Speed	5.5km/h
Sound Level	60.5dB
Ramp Gradient	10%
