Fimap Drain Hose - For IMX

Variant code: 16-434151

Fimap Replacement Hose is a **high-quality replacement hose** designed specifically for **Fimap iMX scrubber dryers**. Available as either a **Vacuum Hose** or **Drain Hose**, these genuine-quality replacement components help maintain the efficient operation of your scrubber dryer by ensuring reliable dirty water recovery and controlled wastewater drainage.

Manufactured from durable, flexible materials, both hose variants are built to withstand the demands of daily commercial cleaning. Their heavy-duty construction resists kinking, cracking and wear while maintaining dependable performance in challenging environments. The **Vacuum Hose** ensures consistent airflow and maximum suction efficiency for effective dirty water recovery, while the **Drain Hose** provides fast, controlled and hygienic emptying of the recovery tank with minimal risk of leaks or spills.

Designed as direct replacement components, both hoses are quick and easy to install, reducing maintenance time and minimising machine downtime. Replacing worn or damaged hoses helps restore optimum machine performance, maintain hygiene standards and extend the service life of your Fimap iMX scrubber dryer.

Ideal for routine servicing and preventative maintenance, these replacement hoses help keep your scrubber dryer operating efficiently and reliably.

Product Features

- Replacement hose for **Fimap iMX scrubber dryers**
- Available as:
  - **Vacuum Hose**
  - **Drain Hose**
- Flexible, heavy-duty hose construction
- Kink, crack and wear-resistant design
- Durable, leak-resistant construction
- Direct replacement component
- Quick and easy installation
- Suitable for commercial cleaning applications

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- Restores reliable scrubber dryer performance
- Maintains efficient dirty water recovery or controlled wastewater drainage
- Helps prevent leaks, spills and loss of suction
- Durable construction for extended service life
- Reduces maintenance downtime
- Supports hygienic and efficient machine operation

Technical Characteristics

- **Product Type:** Replacement Hose
- **Available Variants:**
  - Vacuum Hose
  - Drain Hose
- **Brand:** Fimap
- **Machine Compatibility:** Fimap iMX Scrubber Dryer
- **Material:** Flexible Heavy-Duty Hose
- **Installation:** Direct Replacement

Function by Variant:

- **Vacuum Hose:** Dirty Water Recovery / Vacuum System
- **Drain Hose:** Recovery Tank Waste Water Drainage

Applications

Fimap Replacement Hoses are ideal for **commercial cleaning contractors, facilities management teams, healthcare facilities, schools, retail premises, warehouses, hospitality venues and industrial sites** operating **Fimap iMX scrubber dryers**. Whether replacing a **Vacuum Hose** to maintain efficient suction and water recovery or a **Drain Hose** for safe and controlled recovery tank emptying, these replacement components help ensure reliable day-to-day cleaning performance while minimising downtime and maintaining high hygiene standards.

Property	Value
