Fimap JMX - Battery Powered Disc Scrubber Dryer - 20 inch

Variant code: 16-JMX

Fimap JMX is a robust and reliable **battery powered disc scrubber dryer** designed to deliver efficient floor cleaning performance across commercial and industrial environments. Combining a generous **20-inch (500mm) cleaning width** with large-capacity solution and recovery tanks, the JMX offers the ideal balance of productivity, ease of use and long-term durability for demanding daily cleaning programmes.

Built with operator convenience in mind, the JMX features intuitive controls and straightforward maintenance access, allowing users of all experience levels to achieve professional cleaning results with minimal training. Its powerful scrubbing and water recovery systems work together to remove dirt, grime and contaminants efficiently, leaving floors clean, dry and safe for immediate use. The machine's durable construction is designed to withstand the demands of regular commercial use, while its battery-powered operation provides complete freedom of movement without the restrictions of trailing cables.

Supplied complete with batteries, onboard charger and drive board, the JMX is ready for immediate deployment. Its combination of performance, simplicity and reliability makes it an excellent choice for organisations seeking a dependable scrubber dryer capable of maintaining high standards of floor hygiene and appearance.

Product Features

- **20-inch (500mm) disc scrubbing width**
- Battery powered operation for unrestricted cleaning mobility
- **30L solution tank** and **30L recovery tank** capacity
- Intuitive controls for simple day-to-day operation
- Durable construction designed for demanding environments
- Easy-access design for straightforward maintenance
- Supplied with batteries, onboard charger and drive board

Product Benefits

- Improves productivity through efficient scrubbing and drying performance
- Reduces operator effort with simple, user-friendly controls
- Provides cordless flexibility for uninterrupted cleaning
- Supports high standards of cleanliness and floor hygiene
- Minimises downtime through straightforward maintenance procedures
- Suitable for both experienced and new machine operators
- Delivers reliable long-term performance in demanding environments

Technical Characteristics

- Professional **battery powered disc scrubber dryer**
- **500mm (20 inch) cleaning width**
- **30L clean water tank capacity**
- **30L recovery tank capacity**
- Disc brush scrubbing system for effective floor cleaning
- Onboard charging system for convenient battery management
- Supplied complete with batteries, drive board and charger

Applications

Fimap JMX is ideal for schools, healthcare facilities, retail environments, warehouses, hospitality venues, public buildings and industrial premises where dependable floor cleaning performance is required. Its compact yet productive design makes it suitable for medium-sized floor areas, while the battery-powered operation provides the flexibility needed to clean around obstacles and across multiple locations efficiently. The machine is particularly suited to organisations seeking a straightforward, reliable scrubber dryer capable of delivering consistent professional results day after day.
