Fimap Solution Tank Lid/Measuring Cap: For IMX

Variant code: 16-437966

Fimap Solution Tank Lid & Measuring Cap is a **genuine replacement solution tank cap** designed specifically for **Fimap iMX scrubber dryers**. Combining a secure tank lid with an integrated measuring cap, this replacement component helps maintain the correct dilution of cleaning chemicals while providing a reliable seal for the solution tank during operation.

Manufactured from durable, chemical-resistant materials, the lid is designed to withstand frequent exposure to detergents and daily commercial cleaning environments. The integrated measuring cap enables accurate dosing of cleaning solutions, helping operators achieve the correct chemical concentration, minimise product waste and maintain consistent cleaning performance.

Designed as a direct replacement, the lid installs quickly and securely, creating a leak-resistant seal that helps prevent spills and contamination while protecting the cleaning solution inside the tank. Replacing a damaged or worn lid helps maintain machine efficiency and supports safe, professional cleaning operations.

Ideal for routine maintenance and replacement, the Fimap Solution Tank Lid & Measuring Cap ensures reliable operation and accurate detergent dosing for your Fimap iMX scrubber dryer.

Product Features

- **Replacement solution tank lid with integrated measuring cap**
- Designed for **Fimap iMX scrubber dryers**
- Durable, chemical-resistant construction
- Provides a secure, leak-resistant tank seal
- Integrated measuring cap for accurate detergent dosing
- Direct replacement component
- Quick and easy installation
- Suitable for commercial cleaning applications

Product Benefits

- **Ensures accurate dilution of cleaning**

chemicals
- **Provides a secure seal to help prevent leaks and spills**
- **Supports consistent cleaning performance**
- Reduces chemical waste through precise measuring
- Durable construction for long service life
- Quick replacement minimises maintenance downtime

Technical Characteristics

- **Product Type:** Solution Tank Lid & Measuring Cap
- **Brand:** Fimap
- **Machine Compatibility:** Fimap iMX Scrubber Dryer
- **Material:** Chemical-Resistant Plastic
- **Function:** Solution Tank Sealing & Chemical Measuring
- **Installation:** Direct Replacement
- **Application:** Solution Tank Assembly

Applications

Fimap Solution Tank Lid & Measuring Cap is ideal for **commercial cleaning contractors, facilities management companies, healthcare facilities, schools, retail premises, hospitality venues, warehouses and industrial sites** operating **Fimap iMX scrubber dryers**. It provides a reliable replacement for damaged or worn tank lids, ensuring secure solution storage, accurate detergent measurement and efficient day-to-day floor cleaning performance.
