

Fimap Squeegee Hose: For MXR

Variant code: 16-436198

Fimap Waste Drain Hose is a **genuine replacement drain hose** designed specifically for **Fimap MXR ride-on scrubber dryers**. Engineered to provide fast, clean and controlled emptying of the recovery tank, this replacement hose ensures efficient disposal of dirty water while maintaining the reliable operation of your scrubber dryer.

Manufactured from durable, flexible materials, the hose is designed to withstand repeated use in demanding commercial cleaning environments. Its robust construction resists kinking, cracking and wear, allowing unrestricted water flow during tank emptying while providing a secure, leak-resistant connection to the recovery system.

Designed as a direct replacement component, the waste drain hose installs quickly and easily, making routine maintenance straightforward and minimising equipment downtime. Replacing worn or damaged hoses helps prevent leaks, maintain hygiene standards and ensure efficient operation of the recovery tank drainage system.

Ideal for routine servicing and preventative maintenance, this replacement hose helps keep Fimap MXR scrubber dryers operating at peak performance.

Product Features

- **Replacement waste drain hose**
- Designed for **Fimap MXR scrubber dryers**
- Durable, flexible hose construction
- Provides controlled recovery tank drainage
- Kink and wear-resistant design
- Leak-resistant connection
- Direct replacement component
- Quick and easy installation

Product Benefits

- **Ensures fast and efficient recovery tank emptying**
- **Helps prevent leaks during wastewater disposal**
- **Maintains hygienic machine operation**

- Durable construction for extended service life
- Reduces maintenance downtime
- Restores reliable drainage performance

Technical Characteristics

- Product Type: **Waste Drain Hose**
- Brand: **Fimap**
- Machine Compatibility: **Fimap MXR Ride-On Scrubber Dryer**
- Material: Flexible Heavy-Duty Hose
- Function: Recovery Tank Waste Water Drainage
- Installation: Direct Replacement
- Application: Scrubber Dryer Recovery System

Applications

Fimap Waste Drain Hose is ideal for **commercial cleaning contractors, facilities management companies, warehouses, shopping centres, healthcare facilities, airports, manufacturing plants and industrial sites** operating **Fimap MXR ride-on scrubber dryers**. It provides a dependable solution for draining wastewater from the recovery tank, helping maintain efficient machine performance, minimise downtime and support professional cleaning operations.
