Fimap Squeegee to Recovery Tank Hose - For Genie B Scrubber Dryer

Variant code: 16-421746

Fimap Squeegee to Recovery Tank Hose is a **replacement suction hose** designed specifically for **Fimap Genie B scrubber dryers**. Connecting the rear squeegee assembly to the recovery tank, this hose enables efficient transfer of dirty water during floor cleaning, helping the machine leave floors clean, dry and safe after every pass.

Manufactured from durable, flexible materials, the hose is designed to withstand the demands of daily commercial cleaning while maintaining a secure, airtight connection throughout the recovery system. Its flexible construction allows unrestricted movement of the squeegee assembly without kinking or collapsing, ensuring consistent suction and reliable water recovery.

Ideal for replacing worn, split or damaged hoses, this direct replacement component helps restore optimum recovery performance and minimise water residue on hard floors. Easy to install, it reduces machine downtime and supports routine maintenance, extending the operational life of your scrubber dryer.

Suitable for compatible **Fimap Genie B** machines, this replacement hose is an essential spare part for maintaining professional cleaning performance.

Product Features

- **Replacement squeegee to recovery tank hose**
- Designed for **Fimap Genie B scrubber dryers**
- Connects the squeegee assembly to the recovery tank
- Flexible, heavy-duty hose construction
- Maintains an airtight suction path
- Kink-resistant and durable design
- Direct replacement component
