

Cotec Finger Protection Tape – 2.5cm x 27m – Each – Green

Variant code: 21-80136

Cotec Finger Protection Tape protects fingers, hands and wrists from minor injuries such as cuts, burns and abrasions.

Therefore the tape can be used in any industrial operation where unprotected skin can be damaged. In addition, it can be applied selectively so that only the vulnerable area needs to be covered.

This reduces the cost while improving operator comfort.

Features:

- Prevents cuts and sore fingers
- Protection against hot parts or mouldings
- Prevents finger prints on glass or polished surfaces
- Prevents product contamination by body oils and acids on fingers
- Guards against thread burns
- Quick to apply
- Open gauze allows skin to breathe
- Applying further layers increases protection
