Flash Professional Multi Surface Cleaner with Bleach 800ml

Variant code: 06-1041

Flash Professional Multi-Purpose Cleaner with Bleach Spray is a powerful **multi-surface cleaning and disinfecting spray** designed to tackle stubborn dirt, grease and ingrained stains. Combining effective cleaning action with the disinfecting properties of bleach, it helps maintain clean and hygienic surfaces in kitchens, washrooms and other frequently used areas.

The **bleach-based formulation** provides an effective solution for removing difficult stains and everyday grime from suitable hard surfaces. Ideal for **cooker tops, sinks, work surfaces, ceramic tiles, porcelain and enamel**, it combines cleaning and disinfection in one convenient product, helping reduce the need for separate cleaning treatments.

Designed for convenient everyday use, the **ready-to-use spray** allows targeted application to areas requiring attention. Its cleaning action helps restore the appearance of surfaces while leaving behind a **clean, fresh scent**. Supplied in a practical **800ml spray bottle**, it is suitable for professional cleaning routines and general household maintenance.

Product Features

- **Multi-purpose cleaner with bleach** combines surface cleaning and disinfection.
- **Powerful cleaning action** helps remove stubborn dirt, grease and ingrained stains.
- **Bleach-based formulation** provides disinfecting action on suitable surfaces.

Email: info@aukhygiene.com

surface using the spray bottle, following the instructions on the product label. Allow the recommended contact time for the intended cleaning or disinfection task, then wipe or rinse as directed. For stubborn dirt and stains, additional cleaning may be required. Rinse food-contact surfaces thoroughly with potable water after treatment where required by the label.

Application Considerations: Check surface compatibility before use, particularly on delicate, coloured or unfamiliar finishes. Avoid applying to surfaces that may be damaged or discoloured by bleach. Do not apply to hot surfaces unless expressly permitted by the product instructions. Follow the stated contact time when using the product for disinfection.

Safety: Never mix bleach-based cleaners with acids, ammonia or other cleaning chemicals, as hazardous gases may be released. Use in a well-ventilated area, avoid contact with skin and eyes, and wear appropriate protective equipment where required. Keep out of reach of children and follow the product label and current Safety Data Sheet. Use biocides safely and always read the label and product information before use.
