

Scrubbing Floor Pad – 24" – Green

Variant code: 03-S24G

Ideal for wet scrubbing/cleaning and can be used to "knock-back" polish before re-coating.

Perfect for deep cleaning, ensure the pad is wet before use.

Not to be used on polished floors, unless you want to remove polish. That said, green is not good for stripping polish, it's not aggressive enough for that. Ideal for cleaning heavily soiled or hard to clean floors.

Use with slow speed Scrubbing Machine or Scrubber Dryer 100-200 rpm.
