Fimap Tynex Abrasive Scrubbing Brush: For IMX - 500mm

Variant code: 16-405632

Fimap Tynex Abrasive Scrubbing Brush - For IMX - 500mm is a **heavy-duty abrasive floor scrubbing brush** designed specifically for **Fimap IMX scrubber dryers**. Featuring durable Tynex abrasive bristles, this specialist brush is engineered for intensive cleaning applications where standard brushes may not provide sufficient scrubbing action.

The abrasive bristle construction delivers enhanced cleaning performance, effectively removing stubborn dirt, ingrained grime, grease and residues from hard floor surfaces. Its **500mm working width** provides excellent floor coverage while ensuring consistent scrubbing pressure across the cleaning path for maximum productivity.

Manufactured for demanding commercial and industrial environments, the Tynex brush offers exceptional durability and wear resistance. It is ideal for periodic deep cleaning and restoration tasks where aggressive mechanical cleaning action is required to achieve optimum floor cleanliness.

Product Features

- Heavy-duty Tynex abrasive scrubbing brush
- Designed for Fimap IMX scrubber dryers
- 500mm working width
- Abrasive bristle technology for intensive cleaning
- Removes stubborn dirt, grime and residues
- Durable wear-resistant construction
- Provides consistent scrubbing performance
- Suitable for demanding cleaning applications

Product Benefits

- **Delivers powerful scrubbing action for deep cleaning tasks**
- **Effectively removes ingrained dirt and stubborn floor contamination**
