

Galvanised Steel Scourers – Large – Pack of 10

Variant code: 12-521

Galvanised Steel Scourers are **heavy-duty abrasive cleaning pads** designed to tackle stubborn burnt-on food, baked-on grease and tough grime from durable metal cookware and hard surfaces. Supplied as a **pack of 10 extra-large scourers**, they provide outstanding cleaning performance for demanding commercial kitchens, catering environments and food preparation areas.

Manufactured from high-quality galvanised steel, these extra-large scourers offer excellent durability and abrasive cleaning power, making light work of removing stubborn residues that ordinary cleaning pads struggle to lift. Their robust construction ensures long-lasting performance, even during intensive cleaning tasks.

Designed for heavy-duty cleaning applications, the scourers are ideal for cleaning **pots, pans, grills, ovens, baking trays, metal utensils and stainless steel surfaces**. They effectively remove stubborn stains, grease and carbon deposits, helping restore surfaces to a clean finish. **Not suitable for use on non-stick coatings, polished finishes or other delicate surfaces.**

Perfect for professional kitchens and demanding cleaning environments, Galvanised Steel Scourers provide a reliable solution for fast and effective heavy-duty cleaning.

Product Features

- **Pack of 10 extra-large galvanised steel scourers**
- Heavy-duty abrasive cleaning action
- Removes stubborn burnt-on food and grease
- Durable galvanised steel construction
- Extra-large size for improved cleaning coverage
