Griddle Cleaning Pads - Pack of 10 x 20 - Case of 200

Variant code: 12-046

Griddle Cleaning Pads are heavy-duty abrasive cleaning pads designed for efficient removal of grease, carbon build-up and burnt-on food residue from griddles, flat-top grills and cooking surfaces. Manufactured for professional catering and commercial kitchen environments, these durable pads provide powerful cleaning performance while helping maintain hygienic and efficient cooking equipment.

Constructed from strong non-woven abrasive fibres, these professional griddle cleaning pads effectively cut through stubborn grime and baked-on grease without damaging steel or cast iron griddle surfaces. Designed for use with standard griddle pad holders and griddle cleaning tools, the pads provide reliable scrubbing action for daily kitchen maintenance and deep cleaning tasks. Their durable construction supports extended use in busy commercial food preparation environments.

Supplied in a high-volume **case of 200 pads**, conveniently packed as **10 packs of 20**, these griddle cleaning pads provide a cost-effective solution for restaurants, catering companies, food trucks, janitorial teams and domestic cooking applications requiring professional-grade griddle cleaning performance.
