Griddle Screens - Pack of 10

Variant code: 12-200

Griddle Cleaning Screens are heavy-duty abrasive cleaning pads designed for effective removal of carbon deposits, baked-on grease and stubborn food residue from griddles and flat-top cooking surfaces. Manufactured for professional kitchen and catering environments, these durable cleaning screens deliver powerful cleaning performance while helping maintain hygienic cooking equipment and prolonging griddle lifespan.

Constructed from a strong abrasive mesh material, these professional griddle screens are engineered to tackle demanding cleaning tasks without damaging the cooking surface. Their flexible design allows the screens to conform to flat-top griddles and cooking plates for thorough and consistent cleaning performance. Ideal for use with griddle pad holders, these screens help remove burnt-on grease and carbon build-up quickly and efficiently while reducing reliance on harsh cleaning chemicals.

Supplied in a convenient **pack of 10 cleaning screens**, these griddle cleaning pads provide a practical and cost-effective solution for commercial kitchens, restaurants, catering businesses and domestic cooking environments requiring professional-grade griddle maintenance products.

Product Features

- **Professional griddle cleaning screens**
