Heavy Duty Oven Cloth

Variant code: 12-E929

Heavy Duty Oven Cloth is a professional-grade heat protection cloth designed for safe handling of hot cookware, trays and kitchen equipment in demanding commercial catering environments. Manufactured from 100% unbleached heavy-duty cotton, this durable oven cloth provides reliable heat resistance, flexibility and comfort for everyday kitchen operations.

Designed specifically for commercial kitchens, restaurants, bakeries and catering businesses, this heavy-duty oven cloth offers dependable protection when handling hot pans, oven trays and cookware. The thick 370g cotton construction delivers excellent durability and insulation while remaining flexible enough for secure grip and easy handling during busy food preparation and cooking tasks.

The generous **20" x 40"** size provides extended hand and forearm coverage for improved protection when working with ovens, grills and hot equipment. Manufactured from natural unbleached cotton, this reusable oven cloth is suitable for repeated commercial use and routine laundering, making it an essential kitchen safety accessory for professional chefs and catering staff.

Product Features

- **Professional heavy duty oven cloth**
