Hi-Shine Microfibre Cloths - Pack of 10 - Green

Variant code: 12-HSG

Hi-Shine Microfibre Cloths are premium reusable cleaning cloths designed to deliver outstanding cleaning, polishing and dust removal performance across a wide range of commercial and domestic environments. Manufactured from high-quality microfibre material, these cloths provide exceptional dirt lifting, absorbency and streak-free results while supporting colour-coded cleaning systems for improved hygiene control.

Ideal for professional cleaners, janitorial teams, hospitality venues and facilities maintenance, these versatile microfibre cloths effectively trap dust, grease and dirt without scratching delicate surfaces. The soft microfibre construction allows efficient cleaning with or without chemicals, making them suitable for glass, mirrors, stainless steel, countertops, work surfaces and general hard surface cleaning. Available in **Blue, Red, Yellow and Green**, the colour-coded options help minimise cross-contamination between different cleaning zones.

Supplied in a convenient **pack of 10 cloths**, Hi-Shine Microfibre Cloths offer a durable, washable and cost-effective cleaning solution for everyday professional and domestic cleaning applications.
