

High Performance Glove – XL – Navy

Variant code: 22-A720NARXL

High Performance Glove – Navy

Experience the ultimate blend of precision, protection, and comfort with our **High Performance Glove in Navy**. Engineered for professionals and enthusiasts who demand more from their gear, these gloves are designed to bridge the gap between rugged durability and tactile sensitivity.

Whether you're handling complex machinery, navigating a tactical course, or tackling a high-stakes DIY project, the Navy High Performance Glove provides a "second-skin" fit that never compromises on safety.

Key Features & Benefits

- **Advanced Grip Technology:** Features a reinforced palm with silicone-infused patterns for superior wet and dry grip.
- **Touchscreen Compatible:** Stay connected without stripping down. The thumb and index fingers are equipped with conductive synthetic leather for seamless smartphone and tablet use.
- **Breathable Micro-Mesh:** The deep navy backing is constructed from high-grade moisture-wicking mesh, ensuring your hands stay cool during high-intensity tasks.
- **Impact Protection:** Discreet, low-profile TPR (Thermoplastic Rubber) padding guards your knuckles against scrapes and bumps without adding unnecessary bulk.
- **Secure Fit:** A heavy-duty hook-and-loop wrist closure provides a customisable, locked-in feel that prevents debris from entering the glove.

Product Specifications

Feature	Specification
Material	Synthetic Leather,

Feature	Specification
Colour	Spandex, TPR, Neoprene Deep Navy Blue / Stealth Black Accents
Weight	Lightweight (approx. 95g per pair)
Sizes	S, M, L, XL, XXL
Best Use	Mechanics, Tactical, Cycling, General Construction

Expert Tips & Maintenance

Pro Hint: To extend the life of your gloves, avoid high-heat drying. After a heavy day of work, wash them with mild soap and air-dry them away from direct sunlight to keep the synthetic fibres flexible.

- **Break-in Period:** These gloves are designed for a snug fit. Expect a 1–2 hour "break-in" period for the materials to contour perfectly to your hand shape.
- **Storage:** Clip them together using the integrated pull-loops to ensure you never lose one half of the pair in your gear bag.

Frequently Asked Questions

Q: Are these gloves waterproof? A: While the materials are moisture-wicking and quick-drying, they are not fully waterproof. They are designed for maximum breathability and dexterity in damp or dry conditions.

Q: Can I use these for heavy welding? A: No. These are high-dexterity performance gloves. For welding, you require specialised heat-resistant leather rated for sparks and molten metal.

Q: How do I find my correct size? A: Measure the circumference of your palm just below the knuckles. If you are between sizes, we recommend sizing up for comfort or sizing down for a tighter, "competition" fit.
