HSE Standard First Aid Kit - 1–10 Person - 275 x 185 x 90mm

Variant code: 21-32106

Blue Dot HSE Standard Workplace First Aid Kit - 1–10 Person is a **compact workplace first aid kit** designed to provide essential supplies for treating minor injuries and managing everyday first aid incidents. Suitable for **low to medium-risk workplaces**, it offers a practical solution for small offices, shops, libraries and similar working environments.

Containing a selection of **sterile dressings, bandages, plasters, eye pads and cleansing wipes**, the kit helps employees and designated first aiders respond promptly to cuts, grazes and other minor injuries. Its contents follow the traditional **HSE workplace first aid kit** format, supporting basic first aid provision.

Presented in a **tough, durable plastic box**, the kit keeps essential first aid supplies organised, protected and readily accessible. Designed for workplaces with **1–10 people**, it provides a convenient starting point for first aid preparedness, subject to the workplace's individual first aid needs assessment.

Product Features

- **1–10 person first aid kit** for smaller workplaces.
- **Traditional HSE-style contents** for general first aid.
- **Durable plastic storage box** protects supplies.
- **Sterile wound dressings** for injury management.
- **Washproof plasters** for minor cuts and grazes.
- **Sterile eye pads** for appropriate eye protection.
- **Saline cleansing wipes** for basic wound cleansing.
- **Compact design** for convenient workplace storage.
