Vikan Tank Brush - Stiff - 205mm - White

Variant code: 11-70375

The oval-shaped brush with stiff bristles is effective for scrubbing inside large industrial tanks and other large container-like equipment. The rounded edges work well to clean down the sides of equipment where the entry point is from above. It also fits well into large channel drains. Suitable for cleaning tanks and containers (e.g. in dairies and wineries), cleaning inside tankers and floor cleaning.
