Impact Pro Cut Glove - XXXL - Grey

Variant code: 22-A745GRRXXXL

Portwest Impact Pro Cut Glove (Grey) – Professional Impact & Cut Protection

The **Portwest Impact Pro Cut Glove** is a powerhouse of hand safety, engineered specifically for professionals operating in high-risk environments. Whether you're in heavy construction, oil and gas, or demolition, these gloves combine **premium materials** with cutting-edge **impact resistance** to keep your hands protected without sacrificing dexterity.

Crafted with a sleek grey aesthetic, this glove isn't just about looks - it's about providing a multi-layered defence against the toughest site hazards.

Key Features & Benefits

- **TPR Exo-Skeleton:** Provides superior **impact protection** to the back of the hand and knuckles, absorbing shock and preventing crush injuries.
- **Premium Leather Palm:** Built with high-grade leather and a **reinforced palm**, ensuring maximum durability and an exceptional grip in both wet and dry conditions.
- **High-Level Cut Resistance:** Features a specialised internal liner designed to provide a formidable barrier against sharp edges and abrasive materials.
- **Secure Wrist Fastening:** The integrated hook-and-loop strap ensures a **customised, secure fit**, preventing debris from entering the glove and reducing hand fatigue.
- **Maximum Breathability:** Despite its rugged build, the materials are selected to manage moisture, keeping hands cool during intensive labour.

Material	Premium Leather, TPR, High-Performance Liner
Colour	Grey/Black/Yellow
Protection Type	Impact, Cut, Abrasion, and Puncture
Closure	Adjustable Wrist Strap
Industry Standards	EN388, EN ISO 21420

Pro Tips for Longevity & Safety

- **Size Matters:** A glove that is too tight can cause hand fatigue, while one too loose reduces grip precision. Use the Portwest sizing guide to ensure a snug fit.
- **Storage:** Store your gloves in a cool, dry place away from direct sunlight to prevent the leather from drying out or the TPR skeleton from becoming brittle.
- **Inspection:** Always inspect your gloves for leather thinning or tears in the cut-resistant liner before starting a high-risk task.

Frequently Asked Questions (FAQs)

Q: Are these gloves suitable for oily environments?

A: Yes. The premium leather palm offers excellent natural resistance and grip maintenance when handling oily or greasy components, making them ideal for automotive or rig work.

Q: Can I wash the Impact Pro Cut Gloves?

A: We recommend wiping them down with a damp cloth. Avoid machine washing or harsh detergents, as this can strip the natural oils from the leather and affect the integrity of the impact-resistant bones.

Q: What level of cut protection do they offer?

A: These gloves are designed to meet high EN388 standards. Always check the specific batch stamp on the cuff for the exact rating (e.g., Level D or F) to ensure it meets your specific site requirements.

Why Choose Portwest Impact Pro?

When it comes to **PPE (Personal Protective Equipment)**, Portwest is a global leader in
